Patient Search Box

Last Modified on 12/22/2018 1:21 pm EST

Summary

Patient Search allows you to access the *Patient Details* screen of any patient directly from the Homepage .

Searching for a patient is easy, just begin typing a patient first name and/or last name, a phone number as 10 consecutive digits, a Patient ID, or an email address and then press **Enter** or click the **Search icon**. 🔍

Your results will be shown in the Patients tab. More than one patient may appear in the search results, so select the patient you want and click the underlined patient name to review the details of the patient.

The Patient Details screen shows patient information, communication history, scheduled appointments, and previous appointments.

You can perform a number of actions from the *Patient Details* screen. See Patient Details article for more information.
