

Overview-Announcements

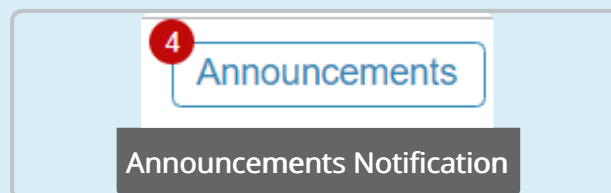

Last Modified on 12/23/2018 5:06 am EST

Summary

Patient Communicator will, from time to time, make an announcement to our practices.

It may be a suggestion about using a feature, notifications of upgrades your software, a new feature now available, or some other important message.

Look for a number in a red circle next to the *Announcements* tab at the top of the Homepage to indicate a new message has arrived.

Click on the **Announcements** button to view the new announcement.
