

# Overview-Advanced Settings

Last Modified on 12/23/2018 7:52 am EST

## Summary

*Advanced Settings* will allow your practice to choose feature options that may enhance Patient Communicator performance. They may be accessed by going to [Settings > Advanced Settings](#).

Their use can provide valuable information, customized messaging enhancements, and access to features allowing your practice to more effectively reach patients. Clicking the arrow will open or close the drop down menu.
