

Message all patients

Last Modified on 12/30/2018 5:01 am EST

How do I send an email to all my patients?

1. Click [Communication Center](#) > [All Patients](#) tab.
2. Select **ALL PATIENTS**.
3. Click **Select All**, and follow the wizard.

See [All Patients](#) article.

Federal law does not permit mass texting to your entire patient list.
