Change practice name

Last Modified on 01/03/2019 7:56 am EST

How do I change my practice name?

Click **Settings > General Settings > Office Settings**

In the **Practice Name** field, modify the name and then click **Save**. See article on Office Settings for details.

Note: Please notify Patient Communicator support of any changes in practice name, ownership, or billing details, so we may update our records.
